Ensuring equitable access to healthy communities and safe workplaces. In the Puget Sound region and around the world, some communities bear a heavier burden of environmental risks and occupational illnesses and injuries. What We Do. WERC conducts basic and applied research related to water and environmental resources. WERC research aims to help improve the quality of life for arctic inhabitants while supporting careful and sustainable development of Alaska's bountiful natural resources, protecting fragile ecosystems, and seeking to better understand the role of the arctic and subarctic in the global system.
